### POTATO GRATIN

---

Preheat an oven to 375°F. Rub the inside of 2 small oval bakers with the cut side of the garlic halves and discard the halves. Coat the inside of each baker with 1½ tsp. of the butter.

In a medium saucepan, combine the milk, cream, minced garlic, salt, pepper, nutmeg and the remaining 2 Tbs. butter. Peel 1 of the potatoes and cut into slices ¼ inch thick. Add the potato slices to the milk mixture to prevent discoloration. Repeat with the remaining potatoes.

Bring the milk mixture to a simmer over medium heat, stirring occasionally. Cover and cook for 3 minutes. Using a slotted spoon, transfer the potatoes to the prepared pans, arranging the top layer of potatoes in an overlapping pattern if desired. Pour the milk mixture over the potatoes, dividing it evenly between the pans. Cover each pan with a piece of buttered aluminum foil, buttered side down. Set the pans on a baking sheet.

Bake the gratins for 30 minutes, then uncover until the potatoes are tender, the liquid bubbles thickly, and the top is brown and crusty, about 20 minutes more. Let stand for 10 minutes before serving. Serves 4.
